

BENEFICIAL REUSE

Means recycling in a green way with NO landfills and LOWER cost

ABRADE-AWAY

Iron Silicate Granules

- Very aggressive, high density, hard abrasive
- AB1 certified
- Ultra low dusting, very low consumption rate
- Highly productive with less than 1% free silica
- Chemically inert
- Used in new construction applications
- ❖ Medium – (3.0 mil – 5.0 mil profile)
- ❖ Fine – (2.0 – 4.0 mil profile)
- ❖ Bulk density - 130 lbs. /cu. ft.

Industrial Sand

- Custom Abrasives industrial sand is pure
- Contains 99.5% silica
- Free of chlorides
- pH balanced
- ❖ #2 Sand (10-40)
- ❖ #3 Sand (16-50)
- ❖ #4 (30-60)
- ❖ Bulk density is 100 lbs. /cu. ft.

Garnet

- Totally natural product
- Inert and free of any toxins or crystalline silica
- Highly productive, low consumption rate
- Superior finish, ultra-low dusting
- Can be recycled
- ❖ 16, 36, 30-60, 80, and 120 mesh sizes
- ❖ Bulk density of 130 lbs. /cu. ft.

Powerblast LS Stauroilite

- Contains less than 1% free silica
- Low dusting
- Clean finish
- Uniformed profile
- ❖ LS (70-140 mesh). 1.0 mil – 2.7 mil profile
- ❖ Bulk density of 130 lbs. /cu. ft.

COAL SLAG

- Versatile abrasive
- SSPC AB1 certified
- MIL-A-22262B(SH) and 40CFR 261.24a (TCLP)
- Less than 1% free silica
- Fast cutting
- Low dusting
- ❖ Medium – (3.0 mil - 5.0 mil profile)
- ❖ Fine – (1.5 mil – 3.5 mil profile)
- ❖ Bulk density of 80-90 lbs. /cu. Ft

Custom-Clean-Cut®

Iron Silicate + Almandine Garnet Blend

- High quality abrasive, AB1 certified
- Aggressive, low dusting, and economical
- Delivers a uniformed white blast finish
- Very low consumption rates
- Custom blended to meet specifications
- ❖ CCC Blend M – (3.0 mil – 5.0 mil profile)
- ❖ CCC Blend F – (2.0 mil – 4.0 mil profile)
- ❖ Bulk density of 130 lbs. /cu. ft.

Blastox® Blended Abrasives

- Granular chemical abrasive additive blended with sand, slag, or other media
- Used in the removal of lead based paint
- **One step lead abatement technology**

Dust Suppressant

- Reduces respirable dust up to 80%¹
- Reduces visible dust by 30-40%
- Dust settles to the ground faster
